

## Spatula

Say goodbye to dipping fingers into jars and hello to a luxury skincare experience. This beautifully crafted zinc alloy skincare spatula set is designed for precision, cleanliness, and a touch of indulgence, ensuring smooth, effortless product application every time.

These tiny spatulas are perfect for sampling, mixing and applying a variety of skin care products such as creams, lotions and masks.

Skincare Spatula Set (2-pack):

- Mess-free – just pure, clean application
- Multi-functional magic – Doubles as a mini massage tool, helping to boost circulation
- Available in silver shade, adding elegance to your routine
- Easy to clean, just wash in running water and wipe it with dry cloth

Pair it with our HL/Skin Ultimate Tension Cream for your stress-free skincare regime.

## **Cleaning Methods**

Your spatulas should be cleaned after each use to prevent accumulation of bacteria.

Here are some methods you can use to clean your spatulas:

1. Soap and water. Using antibacterial soap and warm water, wash your spatulas thoroughly until all product residue is removed.
2. Alcohol. 70% isopropyl alcohol, either wipes or a soaked cotton pad, can be used to disinfect your spatulas. Just wipe until all residue is removed.
3. Boiling water. Metal spatulas can be boiled for deeper sanitization.
4. UV Sanitizers. UV cosmetic sanitizing machines can be used to kill the bacteria on your spatula, just make sure all residues are removed prior to sanitization.

You should also store your spatulas in a clean and dry place, away from sunlight and moisture.

## **FAQS**

### **FAQ 1: Can I use my fingers for skincare products if I wash my hands thoroughly?**

Although washing your hands before handling your skincare is greatly encouraged and essential, your hands can still have bacteria and oils that can contaminate and ruin the integrity of your products. Using a clean spatula is the best hygienic practice.

### **FAQ 2: Can I clean my skincare spatula using the dishwasher?**

Although some metal spatulas can be dishwasher-safe, it is best not to use dishwashers to clean your spatulas as it can damage the material and shorten its lifespan.

### **FAQ 3: How should I store my clean skincare spatula?**

Always store your spatulas in a clean and dry place. Keep it upright to prevent it touching other surfaces.

### **FAQ 4: When should I replace my skincare spatula?**

These skincare spatulas can last up to 3 months or more but should be replaced earlier if they show signs of damage like cracks, tears, discoloration, and surface changes. It is also advisable that you change your skincare spatulas if you've been sick to prevent recontamination.

**FAQ 5: If I rarely use a particular skincare product, do I still need to replace the spatula as often?**

Yes. Replacing skincare products and tools are based on how long you have been using it and not the frequency of use. It is always recommended to replace it after 3 months even if barely used.
